Professional Summary

A passionate and skilled software professional with over a year of experience in web development and data analysis. A qualified postgraduate in Computer Engineering and a certified Full-Stack Software Developer from NIIT. Proficient in Java, JavaScript, React, WordPress, REST APIs, and Spring Boot, with hands-on experience in front-end development. Additionally, skilled in data analysis using Power BI and Python, with expertise in machine learning (classification and regression).

Skills

Programming Languages:

- Java, Python, JavaScript

Frontend Technologies:

- HTML, CSS, React, WordPress

Backend Frameworks & Technologies:

- Spring Boot, REST API, JWT

Testing & Version Control:

- Mocha, Chai, Git

Databases & Cloud Computing:

- MySQL, MongoDB, AWS

Data Analysis & Machine Learning (Secondary skills):

- Power BI, Regression & Classification Modelling, NLP, CNN
-

Experience

Consultant: Web Development & Data Analyst | Wisedge Innovations

02/2024 - Present | Remote

- Developing and customizing websites for improved UI/UX and functionality.
- Leveraging data analysis techniques to predict business prospects.
- Delivering tailored web solutions by understanding and implementing client requirements.

Data Science Intern | Ai Variant

05/2023 - 11/2023 | Remote

- Worked on machine learning and NLP projects, focusing on data preprocessing, exploratory data analysis, and modelling.
- Deployed AI models for real-world applications.

Web Development Intern | Chota Canvas Digital

03/2019 - 03/2020 | Work From Home

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Maintained version control and collaboration using Git and SVN.
- Translated client requirements into functional product stories and tasks.

Education

- **Master of Technology (M.Tech) in Computer Engineering**
Ramrao Adik Institute of Technology, Navi Mumbai (09/2021 - 10/2023) GPA: 8.79/10.0
- **Bachelor of Engineering (BE) in Computer Engineering**
Shah And Anchor Kutchhi Engineering College, Chembur (08/2018 - 06/2021) GPA: 7.04/10.0
- **Diploma in Computer Technology**
Shah And Anchor Kutchhi Polytechnic, Chembur (07/2015 - 05/2018) Percentage: 69.97%
- **10th/SSC**
PVG Vidya Bhawan, Ghatkopar (06/2014 – 04/2015) Percentage: 74.80%

Projects

Kanban Board

- Developed a Kanban Board application using React, Spring Boot, MongoDB and

MySQL. Implemented JWT-based authentication. The communication between services takes place with Feign Client. Designed with modular micro-services architecture, responsive UI and robust error handling.

Holistic Health Monitoring and Health Data Analysis (Wisedge Innovations)

- Developing a cloud-based health monitoring system. Implementing secure login, role-based access, and support for AME/lab report uploads. Integrated OCR using Tess4J & PDFBox to extract medical data from PDFs, laying the foundation for AI-driven health insights and risk analytics.

Zibaash Biryani (Wisedge Innovations)

- Developed a brand website for an online cloud kitchen business using WordPress. Developed Power BI dashboard for the business to track the daily cost of inventory, sales, total revenue till date, and revenue projections for the current financial year based on the daily updated data. Revenue filters are day wise, item wise, discount wise, campaign wise, etc.
